

PHARE PROJECT
dedicated to institutionalized youth (with
social problems) aged between 16-18
years

The stages of the project

1. Identifying the problem

- Institutionalized children from Satu Mare county who remained without support after they turn 18

2. Creating a local partnership

- Putting together the local resources to create a consortium

3. Elaboration of the project and PHARE funds accession

- Technical and financial support from DVV-International

4. Informing and counseling the young people targeted

- Special attention given to the preferences and abilities of the targeted teenagers

5. Preparing the training programme

- A curricula adapted to the system requirements

6. The development of the training programme and evaluation

- In the evaluation commission were part future employers as well

7. Guiding the graduates for employment and solving their administrative problems

Strengths

- The realization of the project was possible due to the fact that each of the had its own contribution
- Individual counseling for these young people and the continuous contact with them for almost a year was extremely important
- The realization of the practice in good conditions and in a greater number of hours
- The selection of the trainers and their better payment

Weaknesses

- this project should have generated new similar project that have a continuous impact both on those who parts of the project and on those who would follow next
